

CAM7570 CMOS Camera

The CMOS camera is a 0.3 mega pixel serial RS232 camera which provides a serial RS232 interface and JPEG compression engine to snapshot and transmit JPEG picture. It can be attached to the ATrack devices and automatically take photos by user define events.

Hardware Specification:

Image sensor	: CMOS 0.3 mega pixels
Image Resolution	: 160x128, 320x240, 640x480 pixels
Image Compression	: JPEG
Focal Length	: 2.8mm
Angle of View	: 120°
Minimum lumen	: 1 Lux
Night Vision lumen	: 5 Lux
Night Vision Image	: Black-White Image
Night Vision Distance	: 3-10 Meters
Power Consumption	: 30~170mA @ DC5V
Length of Cable	: 3 Meters (DB9 Male Connector)
Weight	: 0.4Kg
Size	: L*W*H:70*75*75mm (with metal bracket)
Operating Temperature	: -20°C~ +65°C
Operating Humidity	: 5% R.H. ~ 95% R.H. non condensing
IP Rating	: IP66
